

To whom it may concern

My name is Jason Mittiga and I am the principal of St Albert's Catholic School, Loxton. Yard General Builders have worked extensively at our school refurbishing two classroom, building a multi-purpose library and building an outdoor stadium.

These projects were over a million dollars and I was always informed of progress works and kept up to date with all happenings associated with the buildings.

Tony and his workers have been nothing short of brilliant. Their workmanship is first class and I have been extremely impressed by their attention to detail and their professionalism. The workers are always prompt and conduct themselves well, this is extremely important to me as we have school children present whilst they are working. Anytime services had to be disconnected we would be informed the day before to prepare our children for the disruptions.

Tony was very good on follow up jobs to be done and attended all meetings with architects, project managers and CEO staff from Adelaide.

I would have no hesitation whatsoever in recommending Yard general Builder and in doing so I have used them on 2 more occasions to do little jobs around the school since our major redevelopments.

Some builders have the reputation of not following up things and not returning calls. Tony is very prompt and provides a service that is professional and relational to the customer. As I am not a builder and know very little about the trade I found this very reassuring and valued being kept in the loop and spoken to with respect and dignity.

Regards
Jason Mittiga
